

SENDOLINE S5 NXT

- with unmatched flexibility

Discover Sendoline's S5 NXT System. Rotary heat-treated instruments combined with the trusted and well known sequence.

- **UNMATCHED FLEXIBILITY**

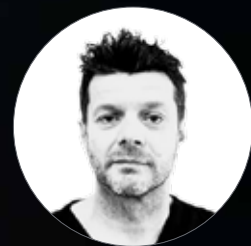

The new heat-treated alloy improves flexibility and the ability to maintain the original root canal morphology, increasing safety and enabling more precise shaping.

- **S5 SEQUENCE**

The S5 NXT instruments come in the same sizes and are used in the same sequence that you know and trust.

- **COMPATIBLE & CONVENIENT**

Use your existing gutta-percha and paper points for a smooth effortless transition.

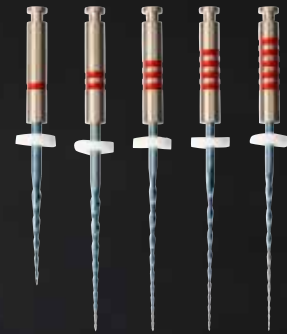

"I've always trusted S5 instruments and the sequence. With the new S5 NXT alloy, they're even better - ultra-flexible and working perfectly for me."

- Theodoros Pentefountis,
General Dentist, Manchester, UK
